## Bootstrap Laravel at the speed of Jet

# About me

**Abbas Ali**

- Founder at Ranium Systems
- Web Developer since 2008
- Laravel Developer since 2013
- Playing with Jetstream and Nuxt these days
- Follow me @\_abbas

# Laravel Jetstream

# Concepts

Laravel + Inertia

OR

Laravel + Livewire

# Tailwind

# Package

```
composer require laravel/jetstream
```

# Installation

```
php artisan jetstream:install inertia
```

or

```
php artisan jetstream:install livewire
```

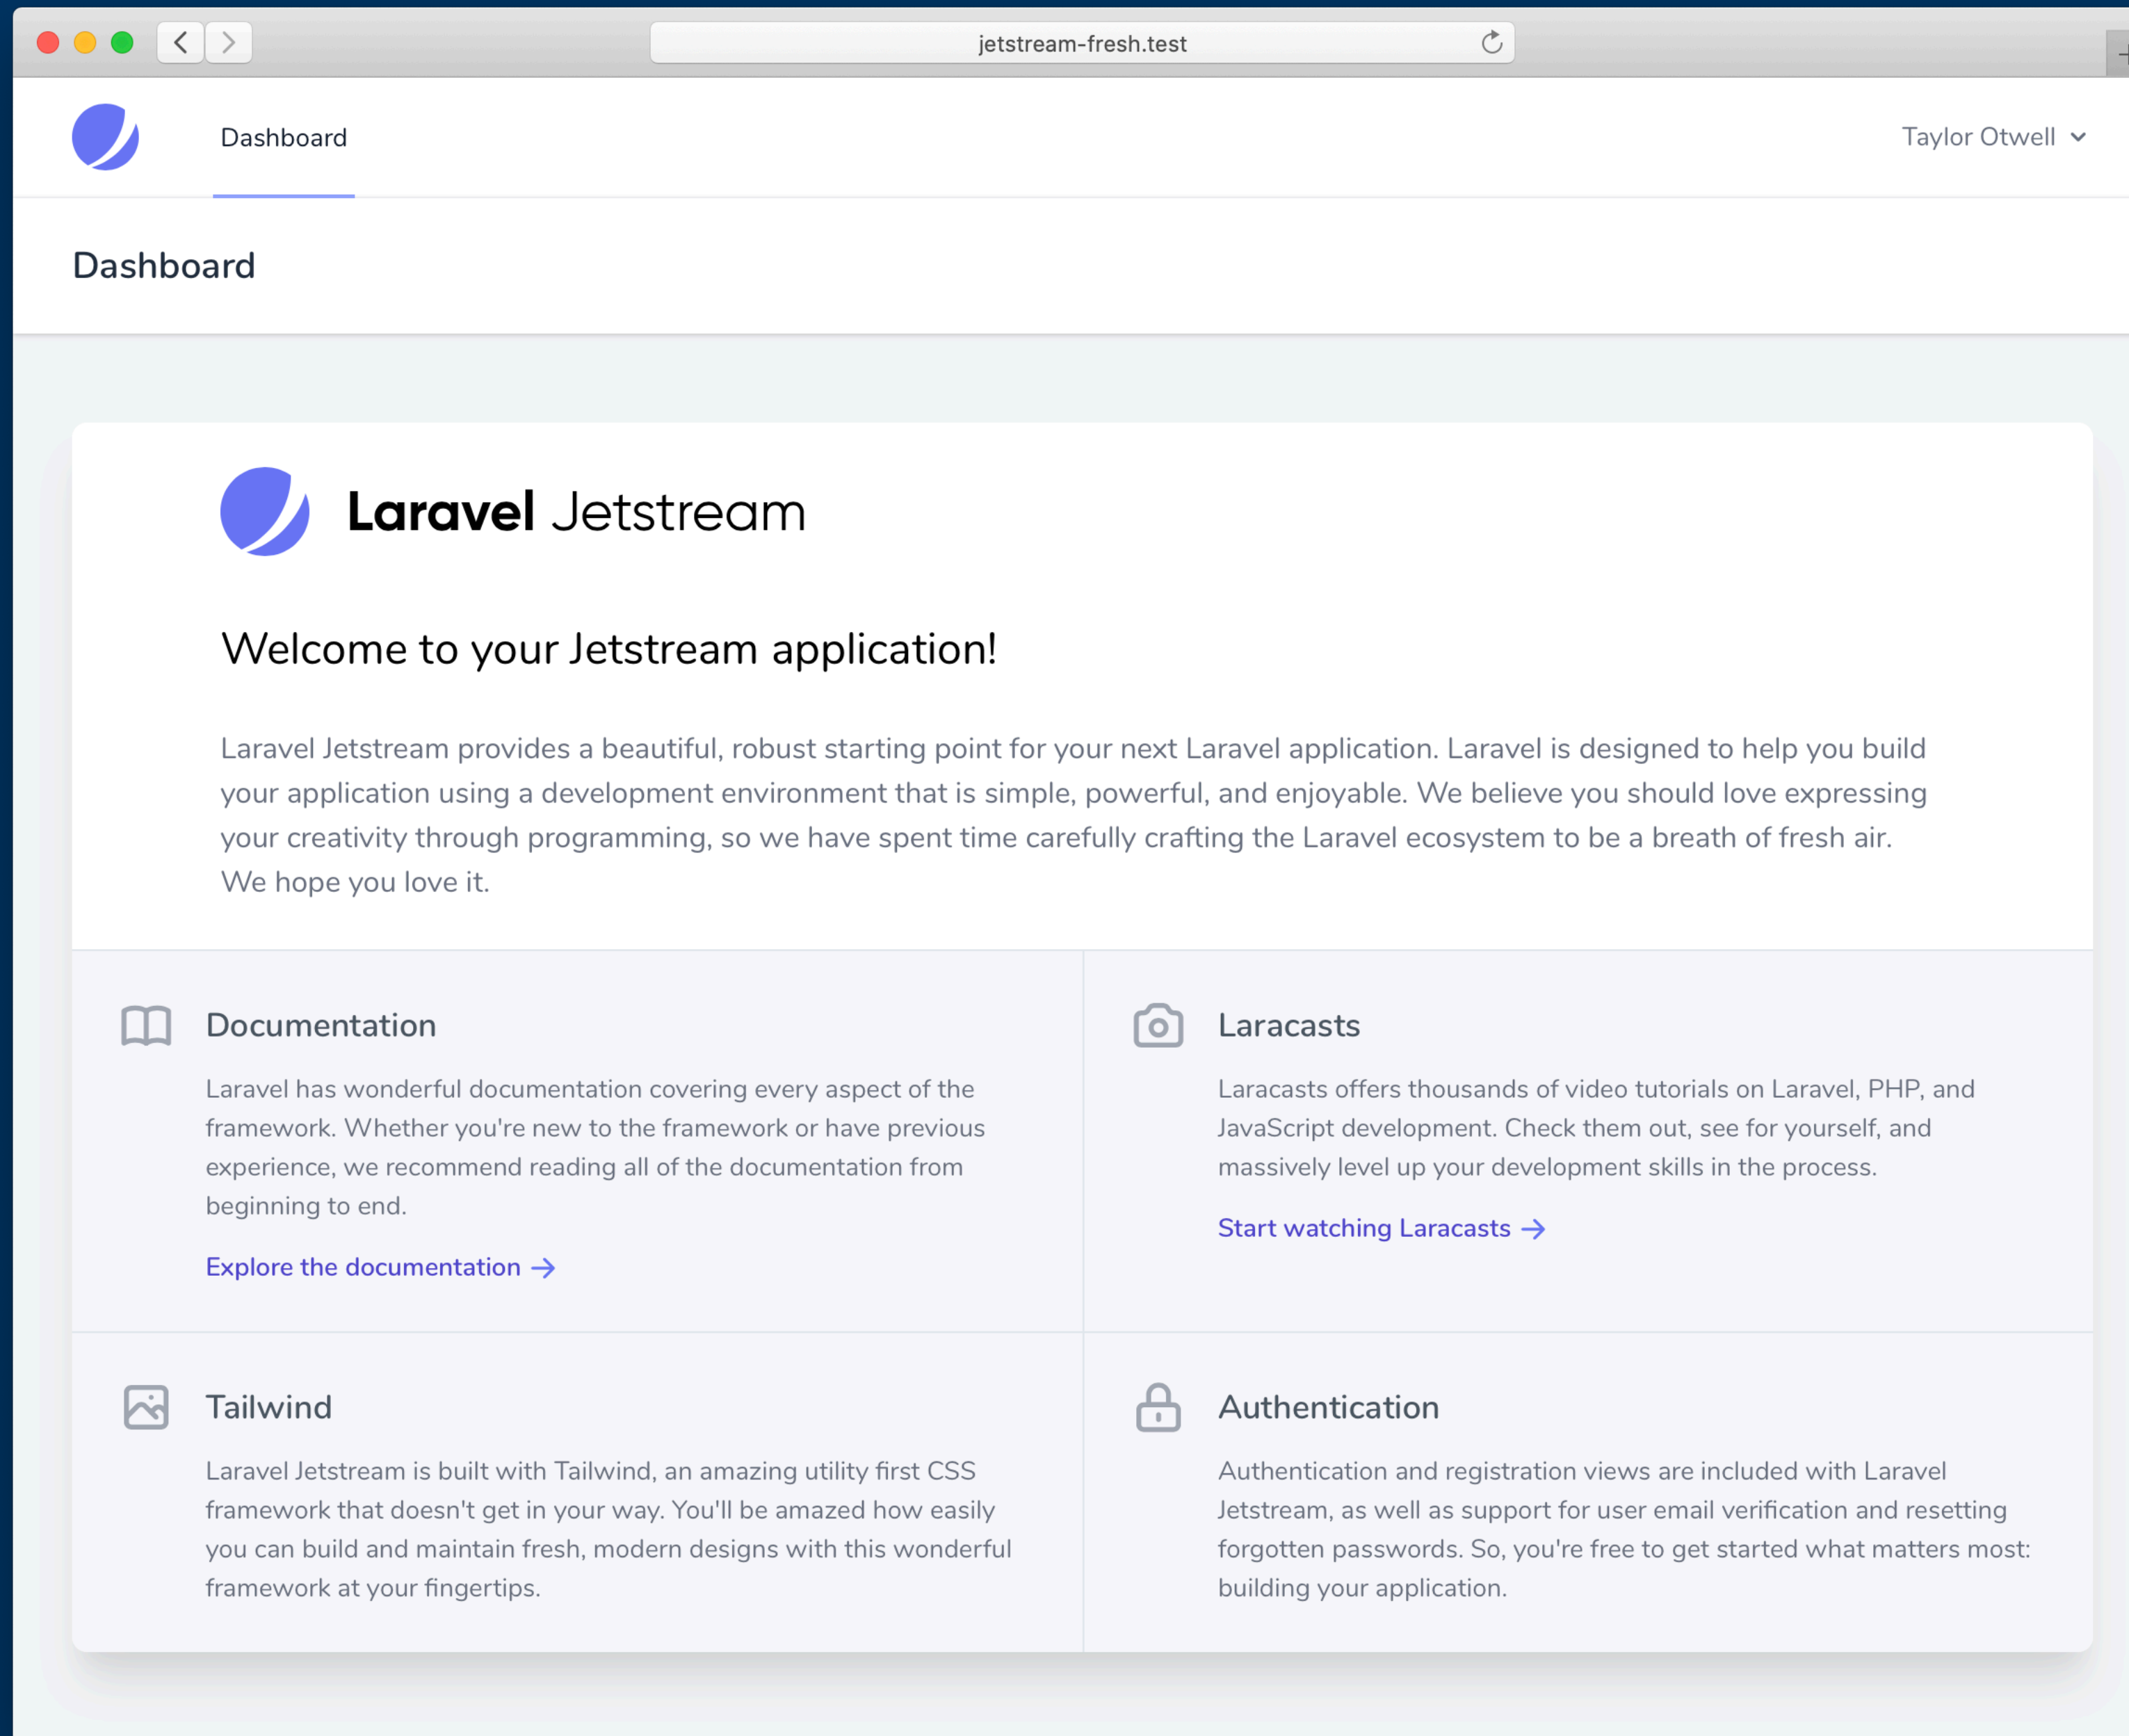

# Assets & Migrations

```
npm install
```

```
npm run dev
```

```
php artisan migrate
```

Let's see it in action...
